ABOUT ACCESS

WHAT WE DO

We help people achieve their dream of owning a business or finding success in a rewarding career.

By providing access to affordable loans through our character-based model, everyone in the community has an equal opportunity to reach their potential and create long-term financial stability.

PROGRAMS

SMALL BUSINESS LOANS

We offer low-interest loans to give emerging entrepreneurs access to the capital they need for success. They're also matched with one of our coaching volunteers to ensure their business is backed with a solid plan.

FOREIGN CREDENTIAL RECOGNITION LOANS

Accreditation costs and a lack of credit history keep many newcomers underemployed. We help our clients re-launch their careers to create a better future in Canada.

WOMEN'S BUSINESS ACCELERATOR

Our free workshop series equips newcomer women with the tools they need to build a profitable business—and economic independence.

OUR IMPACT

CLIENTS REPORT INCREASED SELF-CONFIDENCE, SKILLS DEVELOPMENT AND REDUCED DEBT

80% said working with ACCESS has improved their overall quality of life.

86% improved their business knowledge.

80% were able to achieve their business goals

SUCCESS STORY

KHADJIAH

After two years of unemployment, Khadjiah became her own boss.

She just needed a little extra cash to grow her business and create a sustainable income.

Her skincare products were selling fast, but she couldn't get a bank loan because of her bad credit.

ACCESS considered her potential—not her past, and helped her reach the success she deserves.

A small loan helped her strengthen her business. K Body Blend has given her long-term financial empowerment.

OUR CHALLENGES

REDUCING INEQUALITY

Racialized newcomer women have the lowest median annual income of all newcomer groups at \$26,624.

BUILDING HEALTHY FINANCES

More than half of Canadians live paycheque to paycheque and won't have enough savings to last through retirement.

CLOSING THE PAY GAP

In 2018, female employees earned \$4.13 less per hour, on average, than their male counterparts. In other words, \$0.87 for every dollar.

HELPING NEWCOMERS THRIVE

Immigrants in Toronto, who have been in Canada less than 20 years, have lower incomes today than in 1980.

FEEDBACK

"This changed my life, I have work life balance...it brought me closer to my family and now we get to spend more time together"

"Their loan was a real jump-start. It gave me the confidence to take this next step."

"Programs like these are important because you feel like you get a second chance at what you do, at accomplishing my dreams and goals."
